

Earth Day Pedal Post 2019

Write letters for Earth Day to government officials! Participate in a family-friendly bike ride on Saturday April 20!

Earth Day Pedal Post is a local initiative to promote environmental engagement by gathering environmentally-themed letters from local schools and citizens and delivering them to our government representatives via bicycle. We are asking for your participation, through writing letters, and, if you would like, through joining us on bicycle to help deliver the letters.
